

Welcome!

We want to thank you for choosing Active Chiropractic Meridian and for taking this journey with us to help you achieve your health goals. With your cooperation, we fully expect you will obtain the results you seek. Partnering together, we will get you well as soon as possible.

The purpose of our office is to get you back to living well and living active, and we are always glad to answer any questions concerning your health care. We pride ourselves on serving happy, healthy and enthusiastic patients. Also, please let us know if there is ever a concern or problem you need to discuss (e.g. concerns about your care, finances, long waits, etc.). Your comments help us to identify areas of concern and thus, help our office improve our service to our patients.

As you begin to improve, share your joy and health with your friends and loved ones! We always appreciate referrals, and there may be others who are struggling with health challenges similar to yours. They may not know how they too may greatly benefit from chiropractic care. Once again, thank you for choosing our office, and we look forward to working with you as you regain optimum health.

Sincerely,

Dr. Anthony Cutting and staff

Our Mission

At Active Chiropractic Meridian

We are a chiropractic and wellness facility dedicated to working alongside our patients to help improve their health and quality of life naturally through chiropractic, myofascial release, nutrition, and functional rehabilitation. By putting the patients' needs above all else, we help our community live well and live active.

What to Expect

Day 1

At your first visit you will receive an introductory evaluation. This includes a consultation with Dr. Cutting, a comprehensive orthopedic, neurologic, and chiropractic examination, and an explanation of findings and recommended treatment approach to help you reach your goals and get relief as quickly as possible. X-ray imaging is not required for care, but if deemed necessary at any time throughout the course of treatment, Dr. Cutting will write a referral for any diagnostic imaging such as x-ray or MRI.

Follow-Up Visits

Your subsequent visits to our office will take only 5-15 minutes total, depending on what services you need. Our goal is to get you the relief you want, and to get you back to the life you love and deserve without requiring you to take too much time away from your busy life.
